

Seeking A Cure For  
Retinitis Pigmentosa, Macular Degeneration,  
Usher Syndrome and Allied Retinal Dystrophies

T

Joe Hollyfield

## Recognition

Appreciation of Prof. Joe Hollyfield for his outstanding work in supporting, assisting and advising **Retina International** in the promotion of Scientific and Medical Research.

The 16th General Assembly of **Retina International**, held in Stresa on the 25th of June 2010, wishes to formally recognise the outstanding contribution of Professor Joe Hollyfield to the work of the International Retinal Degeneration movement. His outstanding commitment and enthusiasm was instrumental in the establishment of an enormous world wide body of research into retinal degenerative diseases, resulting in the current coordinated energetic and focused research effort to find treatments for retinal degenerative diseases. His commitment as Chair of the Retina International Scientific and Medical Advisory Board over many years is greatly appreciated as well as his dedication to research in retinal degenerative disease that opened new insights into AMD.

On behalf of the millions of people around the world who live with a retinal degenerative disease and their families, we formally express our sincere thanks to Professor Joe Hollyfield for his outstanding contribution to our cause over the years. His passion and commitment have been a source of inspiration to us and we gratefully thank him for his role in bringing us closer to a cure.

**Retina International General Assembly**

Stresa (Italy), June 25<sup>th</sup> 2010

On behalf of the General Assembly:

Christina Fasser  
President
