

Seeking A Cure For
Retinitis Pigmentosa, Macular Degeneration,
Usher Syndrome and Allied Retinal Dystrophies

Prof. José Sahel

Recognition

The 18th General Assembly of **Retina International** wishes to formally recognise the outstanding contribution of Professor José Sahel to the work of the International RD movement. His energy and dedication were largely instrumental in the establishment of an enormous worldwide body of research into retinal degenerative diseases, resulting in the current coordinated worldwide research effort to find treatments for retinal degenerative diseases. As a clinician, his work has been pivotal in paving the way for future treatment options and carrying out clinical trials, always keeping the patients and their families at its centre.

On behalf of all those throughout the world who live with a retinal degenerative disease and their families, we express our sincere thanks to Professor José Sahel for his contribution to our cause over the years. His passion and commitment have been a source of inspiration to us and we sincerely and gratefully thank him for his role in bringing us closer to a cure.

Retina International General Assembly

Paris (France), June 26th 2014

On behalf of the General Assembly:

Christina Fasser
President
